About this research: Tourism and Events Queensland surveyed 2,009 Chinese leisure (holiday or visiting friends/relatives) travellers living in Beijing, Shanghai, Guangzhou, Shenzhen (core cities) and the provinces of Zhejiang, Jiangsu, Sichuan, Shandong and Guangdong (regions).

We measured intention to visit Queensland, identified channels used for travel planning and looked at the travel behaviours of this audience.

Those surveyed were all out of region travellers, defined as those who have travelled internationally outside of Hong Kong, Macau, Taiwan, Japan and/or Korea in the past 5 years.
